

MIDAS IT EUROPE has collaborated with various European Civil Engineering experts and users, leveraging its expertise in 3D/2D FEM analysis.

We empower our users to deliver complex infra projects with efficiency, accuracy, and easy of use.

MIDAS IT's comprehensive solutions, spanning 3D Modeling from 2D Drawing, bridge design, building design, and geotechnical engineering, position the company as a trusted partner for the civil engineering industry.

Offering a one-stop solution platform for our users, MIDAS IT EUROPE has widely organized this webinar conference in June with the aspiration that European users will have the opportunity to experience the diverse capabilities of MIDAS solutions, driving innovation and efficiency in their work performance related to civil engineering sectors.

The webinar conference is organized for 6th and 7th June 2024, program and registration are here: <https://hubs.ly/Q02wFB3F0>
